**Our Allergy relief treatment is safe for you, your children, your pets, and the environment.**

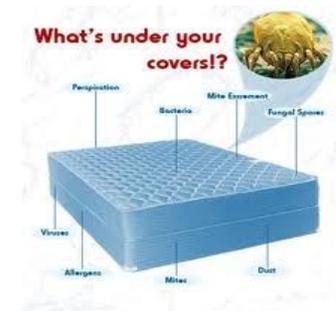

All of the products used for cleaning can be substituted with ones that are Hypoallergenic, Nontoxic, Dye and Perfume free, and contain no Volatile Organic Compounds, phosphates or other hazardous materials. In addition, the products are derived from renewable fruit and vegetable seeds, and are biodegradable. Our allergy relief treatment has all of these properties and can be used after our regular cleaning process.

# An Epidemic

If you are one of the 70 Million Americans that suffer from allergies or allergic illness such as asthma or sinusitis, you already know how miserable they can be.

**Feel the relief  
by Reducing  
Pet and Dust  
Mite Allergen  
Levels by  
90% or More**

There is now a revolutionary new anti allergen cleaning and treatment program that allows our professional technicians to safely, easily and affordably to reduce the levels of these serious allergens by 90% or more.

What you may not know is that dust mite and pet allergens found in doors are one of the leading causes of allergic diseases. And people with relatively mild allergies can develop very serious, chronic and even life threatening illness if they continue to be exposed to these allergens.

## Cleaning Alone is Not Enough

No matter how spotless your home, it is impossible to eliminate or clean away dust mites. And most people can't bear to part with a beloved family pet even if it is the number one recommendation of their doctors.

We can use special hypoallergenic cleaning products while cleaning your carpets, upholstery, rugs and mattresses. We then follow up with our special allergy relief treatment.

The allergy relief treatment works by changing the shape of the allergen proteins, making them unrecognizable to the body, which prevents them from causing an allergic reaction.

## Enjoy Significantly Reduced Allergen Levels From Now On

When properly applied, Allergy Relief Treatment provides a residual effect for up to six months.

Removing a pet from the home is one of the most common Doctor Recommendations for families with children with asthma or severe allergies

### So Effective We Guarantee It !!

When the Responsible Care System of anti Allergen cleaning and treatment is used to service the mattress and carpeting in the bedroom of the allergy sufferer, it is guaranteed to provide a noticeable improvement in allergy symptoms within three days, or we will refund the allergy treatment portion of the charges.
